

Dear Sirs,

I believe that given the current state of technology that any proposal requiring morse for an amatuer license is outdated. WRC has removed morse as a requirement as have many national administrations. Therefore, I believe that the US as technological leader should be quick to follow suit.

In addition, the petitioner wishes specific tests for each operating mode. That would be cumbersome to administer and to verify. What is needed is simplification and not more testing requirements.

Thank you,
John H. Unrath
